Iowa National Guard for eleven years.

First Sergt. Charlton M. Clark is a native of

Mississippi, where he was actively engaged in journalism until the fall of 1890, when he en-

tered the War Department. Testimony as to his qualification for editorial work in Missis-

sippi is borne by the fact that last year he won a sharpshooter's cross. Sergeant Clark has em-

ployed his leisure moments in reading law and will graduate from the National Law School in

June next. He is secretary of his class. He inherits his foudness for military matters, for

his greatgrandfather was one of Virginia's sol-diers in the revolutionary army, while other

ancient and honorable relatives figured prominently in the military history of the state. He

is a member of various orders in society and is

in extremely popular member of the company.

THE ARMORY.

Members of the company, which will before

the close of the summer probably be assigned

to the second battalion, are especially pleased

with their armory. This important essential occupies the entire sixth floor of the Ward

building on D street between 9th and 10th. Seven rooms take up one hundred and forty

feet of the available two hundred feet of denti

the remaining sixty-six feet being used for the

drill hall. The rooms, as will be seen by ref-

## SOCIETY AND SPRING. Weddings and Other Happenings of

the Week.

A RECORD OF PLEASURE.

Parties and Club Meetings-Mrs. Cleveland's Receptions at the White House-Notes About Well-Known People-Dances and Other Entertainments. The social program of the past week was car-

ried out without a break. It was a very lively period for a good many, but not entirely so for the great mass of those who go to make up society. Naturally those who are providing the amusement are the resident families. The new officials have neither time nor taste for anything yet but trying to feel settled, and most of the senatorial families are hoping from day to day to be able to get away to their homes. The entertainments for the younger portion of society - the college boys and girls were not as numerous as they were at the last holiday time a fact which many of the staider folks regard as a very wise thing. The list of weddings has been most interesting and each week this month will be pleasantly divided the same way. The May and June weddings on the cards are no less enning. The marriage of Miss Williamson and Mr. Jones at St. John's on Wednesday was the prettiest the historic old edifice has witnessed in many a day. It has been long an established married at St. John's than any where else. The introduction of the electric light has removed the only objection which ever could have existed and now the real beauty of the church is brought out in every particular, and somehow or other it never looks better than when a bride and her train of attendants are coming down the

For the coming week anticipation will play a livelier part than reality. There will be plenty of entertainments, but they will be more or less of an impromptu character. Dinners are numerous and luncheons equally so.

ong before many people were aware of its birth. The inspiration for a War Department company was furnished by Secretary Elkins in a letter addressed to Gen. Ordway, in which the Secretary expressed his interest in and admira-tion for the District National Guard, and his strong desire to see the department properly represented therein. Over his signature appeals were made by a member of the Secre-tary's staff, but, although fully forty men reponded, nothing was ever accomplished.

Last January three gentlemen connected

with the department met at the Columbia Athletic Club and determined upon the or ganization of a company. All were enthusiastic guardsmen and earnest workers, so it was no at all surprising that on the 11th day of Feb ruary thirty-five men were mustered in by Col. Theodore Mosher, the adjutant general. Mr. and Mrs. Allen C. Clark entertained Seven days later and there were eighteen more in their respective places: Captain, Frederick T. Wilson; first lieutenant, Robert E. Wilson M. ITS OFFICERS. The company is especially blessed with good officers, chief among whom, of course, is Capt. Frederick T. Wilson, who is a native of Massa-chusetts and whose military career commenced when he was fourteen years of age, at which School Cadets. Later he entered the regular army and speedily achieved promotion. For over a year he was drill sergeant at the principal recruiting depot in New York harbor; he became sergeant major, accompanied a detachover a year he was drill sergeaut at the principal recruiting depot in New York harbor; he became sergeant major, accompanied a detachment of 600 recruits to Texas, and there, attracting the favorable notice of the commanding general, was detached from his regiment to be chief clerk of the military department, which position he held until transferred to Washington. He has assisted in the organization of six companies of the District National Guard and of these he commanded five. In the spring of 1892 he resigned National Guard and of these he commanded five. In the spring of 1892 he resigned from the captaincy of the War Department Rifes and the company immediately declined and refused to reorganize. Capt. Wilson has a national reputation as a writer on military and especially tactical subjects; his familiarity especially tactical subjects; his familiarity with the new drill regulations is probably as Wilson Market Rifes and Rifes and Rifes R great as that of any man in or out of the army.

The Emmett Arthur is in port. This craft, as before stated in The Star, is to carry a lively party of Georgetown people down to the naval review and is to be commanded by Officer Banagan of this precinct. The Arthur is being overhauled and having some fittings and fur-nishings put in. Her sailing date is April 14. Mr. Lewis Lehman is organizing a club of fun-bent Georgetowners for a trip to Hampton Roads during the review. So far there have been about one dozen subscribers to the general fund. The boys are to make for the comfort, happiness and entertainment of the party. The tourists will go down aboard one of the Norfolk propellers. A stay of one week will be made.

A resident of Georgetown has received from

"There are," he said to THE STAR representa tive this morning, "about 150 American citizens in Turkey, most of whom are connected with the educational institutions under missionary supervision. There are eight colleges, the curriculum of which is essentially the same as the average American college, but the lin guistic requirements are, of course, different, as there are several languages spoken in the empire. English, however, is the fundamenta language in the institutions under America: control, though the students are drilled in their different vernaculars. Most of the students are Armenians and Greeks with a sprinkling of kindly to us.

"There are also 400 or 500 common schools which are assisted temporarily in various ways by the American missionaries. One salient eature in this educational progress is the education of the women. It was an innovation when begun, but is now fashionable. Formerly girls were not educated, it not being sup-posed necessary or desirable that their intel-lects should be cultivated, but it is now different, and the excellent example set is being em-

The improvement in the status of woman and the family is noticeably very great, especially among the better classes.

"In fact, matters have changed greatly for the better in recent years in Turkey. During my residence there I have seen an entire system of macadamized roads throughout the empire built and many other great reforms, including the construction of several railroads. In the place of the old Koranic code there now exists a civil code of laws. The new roads facilitate transportation in the empire, necessarily increase commerce and Turkey is advancing. The schools I have mentioned have the same engaged in the wood and coal business in Alexsuland and the construction of the construction of the construction of the construction of several railroads. English is now spoken in every town in Turkey, and sometimes there are hundreds in a single town who speak the language, and all within a few years. The life of west corner of the market square and passed the missionaries is pleasant in some respects, the climate being delightful, though things are crude and undeveloped from an American's standpoint.
